SUMMARY

Detail-oriented Computer Science and Engineering graduate with strong knowledge of Manual testing and Automation testing concepts including Selenium, Selenium WebDriver, SDLC, STLC, test case design, and defect life cycle. Good in writing clear detailed and effective test cases. Skilled in Java, SQL, REST API's, API testing, identifying issues, analyzing system behavior, and ensuring software quality. Eager to contribute to a quality focused Software testing team.

EDUCATION

Jawaharlal Nehru Technological University Anantapur	2022 – 2026
B.Tech in Computer Science and Engineering	CGPA: 8.27
Sri Chaitanya Junior College	2020 – 2022
Intermediate	CGPA: 9.28
Sri Sai Ram High School	2020
Schooling	CGPA: 10

TECHNICAL AND PERSONAL SKILLS

Programming Languages: Java, Python	Database: MySQL, Oracle SQL
Frontend: HTML, CSS	Concepts: OOPS, DSA, DBMS
Backend: Spring, Spring Boot, REST API'S	Personal Skills: Good communication, Coding
Testing: Manual testing, SDLC, STLC, Test Case Design, Test Scenarios, Bug Life Cycle, Defect tracking	
Automation Testing: Selenium, Selenium WebDriver, Selenium Locators, selenium waits, testNG (Basic).	

PROJECTS

DeepFake Detection

MACHINE LEARNING, CNN

- Developed a deepfake detection system using frequency domain analysis to identify inconsistencies between facial and non-facial regions in images and videos.
- Integrated Inception V3 and SiamNet models for feature extraction and similarity analysis, enabling accurate detection of manipulated content.
- Achieved 95.15% accuracy and 95.27% precision, demonstrating the effectiveness and reliability of the proposed solution.

Sales Savvy Project

Java, Spring Boot, API

- Developed a full-stack sales management application to streamline customer, product, and sales data management through an intuitive user interface.
- Built RESTful APIs using Spring Boot and integrated MySQL for efficient data storage, retrieval, and CRUD operations.
- Implemented responsive frontend components and backend business logic to enhance user experience and improve operational efficiency.

INTERNSHIP

Java Full Stack Development

Jan 2026 - present

- Completed Java Full Stack Development internship with hands-on experience in Core Java, HTML, CSS, JavaScript, Spring Boot, REST APIs, and MySQL.
- Developed responsive web applications and backend services while applying OOP concepts, database management, and full-stack development practices.
- Collaborated on real-world projects, enhancing problem-solving skills and gaining practical exposure to software development lifecycle methodologies.

ACHIEVEMENTS AND CERTIFICATIONS

- Cloud-Computing - Certification in National Programme on Technology Enhanced Learning (NPTEL).
- HackerRank certifications in SQL, JAVA programming
- Secured 1st rank in Code Rush among 120+ participants.
